ABOUT US

Who we are

At TMS-CA, we are dedicated to delivering top-tier industrial solutions that empower your business to thrive. Specializing in power generation, transmission, distribution, SCADA systems, and oil and gas, our comprehensive offerings provide both advanced technology and industry expertise. With a skilled team and a deep understanding of strategic business units, we provide consulting services to help you elevate your brand, streamline engineering processes, and achieve seamless commissioning. Partner with TMS-CA for a future driven by power, innovation, and success.

25+

Years of Industrial Experience

With over 25 years of unrivaled industrial experience, TMS-CA has honed its expertise, delivering exceptional quality and unmatched reliability to clients across various sectors.

Core Qualities

Reliable

We prioritize dependability in every project we undertake. Our clients trust us for timely, consistent, and high-quality solutions, ensuring that their operations run smoothly with minimal disruption.

Professional

Our team is composed of industry experts who approach each project with dedication, precision, and respect. We uphold the highest standards of professionalism, delivering results that exceed expectations.

Appreciated

We value our relationships with clients, partners, and stakeholders, working hard to foster trust and mutual respect. The loyalty and appreciation of our clients reflect our commitment to exceptional service and lasting partnerships.
